• BERUFSERFAHRUNG

DATA INTEGRATION MANAGER – CORONANET RESEARCH PROJECT – 01/10/2021 – 01/06/2023 – MUNICH, DEUTSCHLAND

- Managed end-to-end data integration processes, ensuring seamless data flow across systems
- Utilized Google Sheets to perform in-depth data analysis, including trend identification and report generation.
- Designed, implemented, and maintained relational databases to support data storage and retrieval
- Developed R scripts for statistical modeling, data manipulation, and automated reporting.

PROJECT MANAGER – CORONANET RESEARCH PROJECT – 01/09/2021 – 01/10/2023 – MUNICH, DEUTSCHLAND

- Managed full project lifecycles, from initiation and planning to execution, monitoring, and closure, ensuring on-time and within-budget delivery
- Oversaw data management strategies, ensuring data integrity, quality, and accessibility across project teams
- Developed and delivered compelling presentations to stakeholders, including project status updates, risk assessments, and strategic recommendations
- Led projects involving Big Data analytics, coordinating data collection, processing, and analysis to extract actionable insights

EXPERT RESEARCH ASSISTANT – CORONANET RESEARCH PROJECT – 01/10/2021 – 01/06/2023 – MUNICH, DEUTSCHLAND

- Analyzed policy documents, legal texts, and government announcements to extract key data on policy interventions
- Identified and reported inconsistencies/ambiguities in policy documents, enhancing data clarity.
- Ensured data accuracy and reliability through rigorous quality control and validation.
- Trained and mentored junior research assistants in coding procedures and best practices.
